

WATER SUSTAINABILITY POLICY

ENOWA will achieve the most ambitious sustainability targets for a water sector globally, going beyond circularity to maximize resilience and prosperity for NEOM’s environment, economy and society.

We rely upon our continued ability to research, innovate, and improve to provide our customers with high quality water and world-class services.

Our core objectives are encapsulated in the following Water Sustainability Outcomes:

ENVIRONMENTAL	SOCIAL	GOVERNANCE
 Carbon Negative and Climate Resilient Services	 Highly Efficient and Integrated Services	 Productive and Financially Sustainable Services
 Environmentally Restorative and Regenerative Services	 Safe, Reliable and Affordable Services	 Inclusive and Accountable Services
 Water Positivity and Services That Move Beyond Circularity and Maximize Value From Outputs	 Functional and Socially Supportive Services	

We are dedicated to protecting the environment and society by setting measurable objectives and targets. We will implement, communicate, maintain, and continually improve our Environmental Management System in line with ISO 14001:2015 to improve environmental performance and fulfil compliance obligations.

This policy shall be reviewed regularly to ensure that our statement remains applicable and effective.

GAVIN VAN TONDER
Managing Director, Water
